STARTING IT UP

ADOPT Smarter TECHNOLOGY
TO ACCELERATE YOUR STARTUP'S GROWTH

Powered by Intel®.

www.lenovo.com

Embrace your evolving IT requirements

As you make the journey from a consumer to a business owner, you need to assess the role technology can play in your venture's success. From securing your business data and enabling fluid collaboration, to delivering higher productivity and greater revenue, technology can help you at every step. However, as a startup, you can't be overly ambitious and tie up all your funds on technology deployment. But undermining the importance of technology and under-equipping your workforce can be disastrous.

A smarter approach is what you need, along with a technology partner that guides you on this path and helps you procure the right technology for your business—for today and tomorrow.

Lenovo

Warranty Extensions

Realize your objectives for cost efficiency, improved service levels, and end-user satisfaction with warranty extensions. Lenovo's flexible warranty options are designed to fit the different needs of your business.

Warranty Upgrades

Ease your mind by seamlessly upgrading to depot service, onsite service, and onsite with tech installation of customer replaceable units.

Sealed Battery Warranty

Protect your investment by extending one-year base battery warranty to three years. A Sealed Battery Warranty will prevent the hassles and frustrations of system unavailability.

Keep Your Drive

Avoid any potential legal and monetary repercussions associated with a breach in data security with Lenovo Keep Your Drive service. It provides predictable upfront costs and eliminates the need for tracking failed drives in transit, giving IT staff the time to concentrate on mission-critical business activities.

Up to Intel® Core™ i7 processor

Accidental Damage Protection (ADP)

Safeguards devices from failures due to drops, minor spills, electrical surges, or other accidental damage that can disrupt business continuity.

International Warranty

International Warranty Upgrade extends coverage outside of the user's home country. The service level is provided at the same level as the user's home country or closest service level available for the country being visited.

Premier Support

Avail a dedicated 1-800 phone number and single point of contact for end-to-end case management for OEM software and hardware support. Benefit from courteous, consistent communication from a skilled technical troubleshooter for a speedy resolution.
